

**Matt Dalley  
Demolition Contracting Pty Ltd**

# Capability Statement

# Overview

At Matt Dalley Demolition Contracting, we are the trusted foundation behind urban transformation — expertly clearing the way for the skylines of tomorrow. Our reputation is built not just on demolition, but on trust, quality craftsmanship, and an uncompromising commitment to safety and excellence.

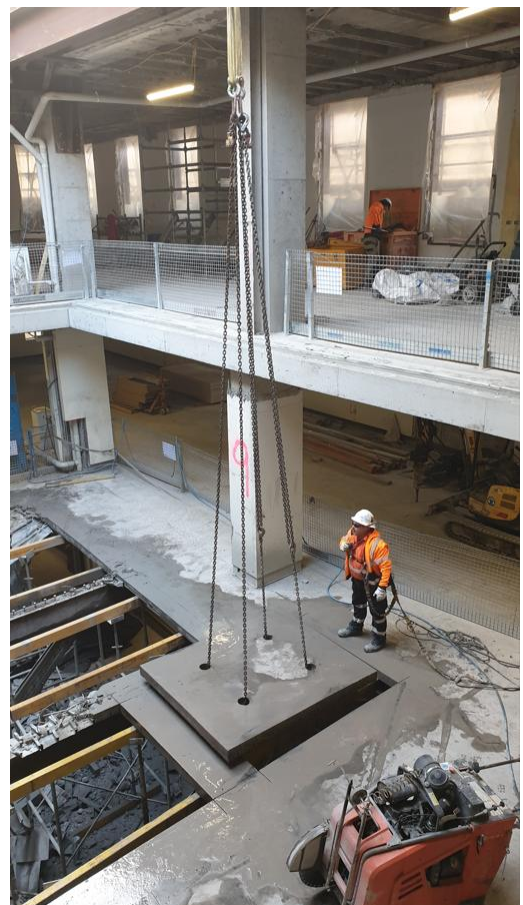

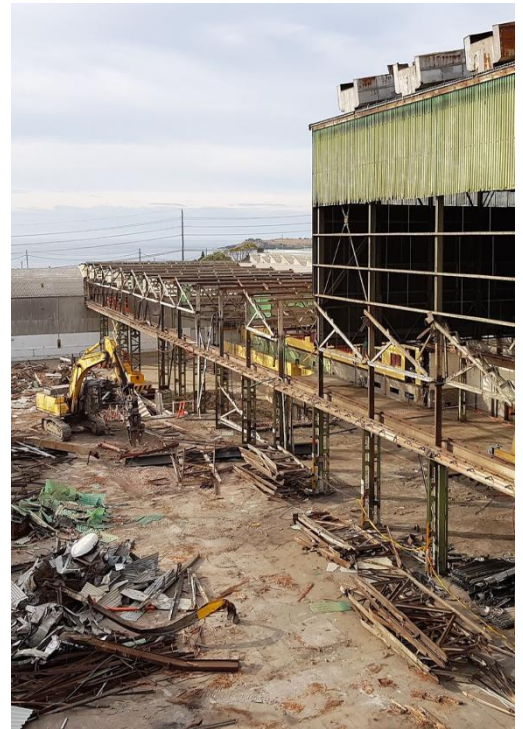

Our three specialised divisions — Demolition, Concrete Cutting, and Hazmat Management — operate seamlessly together, delivering fully integrated solutions for projects of every scale and complexity. Whether you require a comprehensive service or a targeted operation, we tailor every project to meet your specific needs.

We do more than remove structures — we help shape the future. With extensive expertise across demolition, concrete cutting, hazardous materials management, waste management, environmental stewardship and site preparation, we transform today's challenges into tomorrow's opportunities. Driven by professionalism, superior quality, and a relentlessly solutions-focused mindset, Matt Dalley Demolition Contracting is your dedicated partner in reimagining and rebuilding the spaces of tomorrow.

The backbone of our company is our highly skilled and professional workforce. Our team consists of:

- Certified demolition supervisors
- Professional demolition workers
- Licensed hazardous materials specialists
- Structural engineers – specialised in demolition work
- Experienced project managers
- Skilled equipment operators

Each professional is hand-picked not just for their skills, but for their positive attitude and dedication to our craft. We don't just train our team; we nurture their talents, ensuring they're always at the cutting edge of industry innovations.

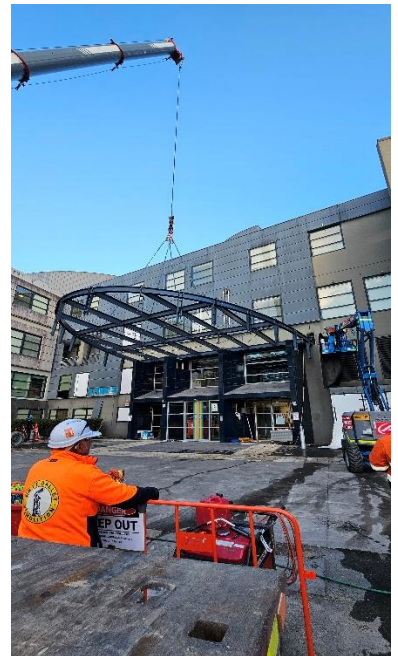

## Demolition

Our Demolition Division provides demolition, dismantling, reconfiguration and site clearing services to the construction, industrial and infrastructure sectors.

We operate our own fleet of waste management vehicles to maximise resource recovery and recycling, this ensures that the service provided to our clients is consistent and cost effective as well as meeting the needs of regulatory authorities and current environmental standards.

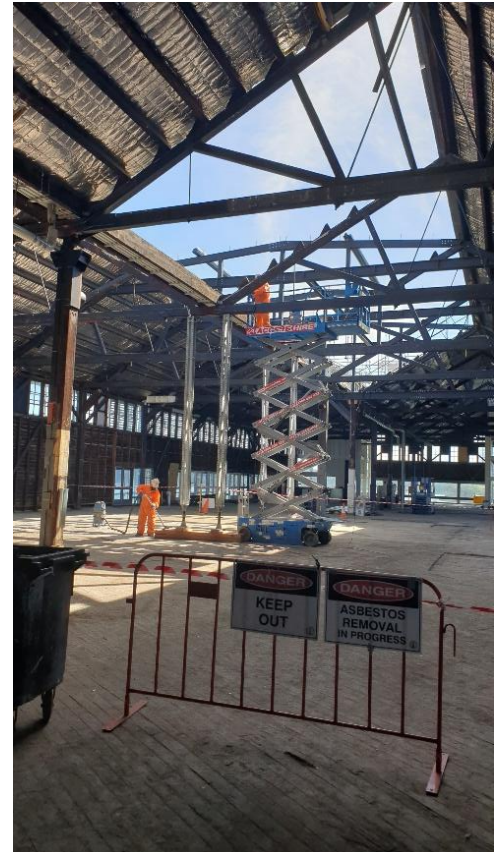

## Hazmat Management

Our core service is the removal and disposal of asbestos, lead and other hazardous materials from commercial, industrial, retail and community facilities. We have successfully completed numerous remediation works on a variety of sensitive sites including schools, hospitals and universities.

Our experience in a variety of hazardous removal methods enables us to be competitive in both pricing work and completing work within a required construction program.

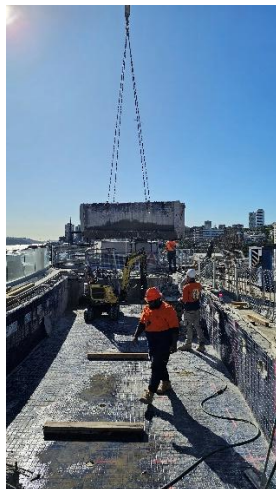

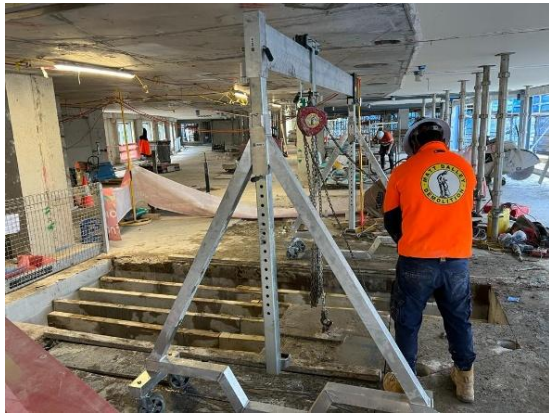

## Concrete Cutting

our Concrete Cutting Division offers a state-wide service employing a highly skilled, direct labour force, on call 24 hours a day. Each of our site staff has been trained to a high level of competence. Our management and supervisory staff are a technically competent team supplying concrete cutting services to the construction industry.
